

Pot Irrigation

Pairing Supertif and Hydrogol for uniform pot irrigation

- Flexibility – easily adaptable to any pot size
- Uniform application of water and nutrients
- Field proven components – Supertif and Hydrogol
- Saves time – limited number of components means faster installation

Rivulis Supertif applications with Hydrobloom

Pairing Supertif and Hydrobloom enables higher uniformity in pot irrigation.

A uniform water distribution in the pot enables roots development, which allows for better utilization of water and fertilizer.
